

CERTIFIES THAT **GIFT SIFWAKU**

Has participated in the 26th edition of Incubadora CON VALORES.

Melquiades Lozano
Co-founder

Valencia, May 2026.

Andrea Platero
Co-founder

Diploma Notarized with Polygon Blockchain technology. Registration can be checked here or scanning the QR code

This certificate recognizes the successful participation and completion of **Phase 1** of the **CON VALORES** Incubation program developed between **February and May 2026**.

This three-month phase explored key methodologies such as Lean Startup, Design Thinking, and customer validation. Skills were acquired in problem identification, prototyping, validation experiments, and business strategies. Participants demonstrated a commitment to continuous learning and strategic adaptation, laying a solid foundation for the development of their entrepreneurial projects.

In addition, 27 hours of training, 6 hours of group dynamics, 6 hours of group coaching, and 20 hours of mentoring were provided with the support of two business professionals. The business model was designed on our e-learning platform (39 hours). From there, the entrepreneurs completed 39 hours of on-site validation, connecting with potential clients.

Through this practical approach, individuals have not only increased their theoretical knowledge but have also developed practical skills related to entrepreneurship.
